The Clinisafe range of Cardboard Clinical Waste Containers is constructed from recycled cardboard and contains an integral polyethylene liner containing ties for closure.

The environmentally friendly, lightweight design allows the Clinisafe Cardboard Clinical Waste Container range to be delivered folded flat prior to use, therefore reducing transport costs and minimising on storage space.

The range is approved to UN3291 and NFX 30-507 and is available in 12 litres, 25 litres and 50 litres sizes.
